### Introduction

\* indicates a required field

Welcome to the NSW competitive tender process for xxxx conducted by AEMO Services Limited as the NSW Consumer Trustee.

This tender process is designed to select quality Projects capable of delivering electricity infrastructure that is in the long-term financial interests of NSW electricity customers.

There are two sequential steps to initiate your participation in Stage A of this tender round. The first step is to register your Project (this Registration Form) and in the second step, you will complete your Project Bid.

Key dates:

- 

### Important Information

On 22 May 2024, the Tender Guidelines will be available for download on the [AEMO Services website](#). The Tender Guidelines contain information relevant to the preparation of the Registration and Bid forms.

To streamline the tender submission process, Proponents now have the option to create a SmartyFile profile for your organisation. A SmartyFile profile allows multiple team members to collaborate on your tender submission at the same time and you have the flexibility to assign different access levels to your team members as well as many other helpful features.

For detailed instructions on setting up your organisation's SmartyFile profile, please refer to the [SmartyFile Help Page](#).

Alternatively, if you choose not to set up a SmartyFile profile, you can still work on the Project Bid form using your previous login details. However, note that this option restricts access to one person working on the file within the system at any given time. You will need to download a PDF of the Project Bid form to allow content to be developed by multiple users. When using this option please ensure team members save regularly to avoid losing any information.

For help using this form, download the [SmartyGrants help guide](#) for Proponents or check out [SmartyGrants Proponent FAQs](#).
